PROVEN PALATABILITY AND PERFORMANCE

Give calves the head start they need to reach their full potential by feeding from our range of nutritionally balanced, wholesome feeds. All feeds are Animal Bi-Product free and include locally grown cereal grains with added Protein Meals, Coccidiostat & Vitamin Mineral Premix. We do not use low energy "fillers" in our calf feeds e.g. Broll (bran & pollard) or Palm Kernel.

Prices are GST exclusive per tonne in 25kg bags ex Invercargill store. Large or bulk orders P.O.A.
*Please note we will endeavour to hold these prices for the season, but due to circumstances beyond our control they may be subject to change without notice.

For clients using **10 Tonne or more** we are continuing our volume incentive on calf feeds. Accounts will be invoiced at standard season prices, and **payment is required in full as per normal credit terms**. A credit of **\$20 per Tonne** on calf feed used, will be given to all clients who meet this criteria. Credit is paid on the first invoice at the beginning of the 2027 calf season.
